MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence

25X1 FROM:
Deputy to the DCI for Resource Management

SUBJECT: FY 1981 Funds for the Community-wide
Computer-assisted Compartmentation
Control System (4C)

REFERENCES: A. United States Senate Committee on
Appropriations, DOD Appropriation Bill,
1981, Classified Annex, Report 96-1020
B. House of Representatives Classified
Annex to the Joint Explanatory Statement
of the Committee on Conference to Accompany
the Conference Report on HR 8105,
Report 96-1528A, 4 December 1980

1. Action Requested: That you sign the attached letters to the Chairman, Subcommittee on Defense, Senate Appropriations Committee, and Chairman, House Appropriations Committee.

2. Background: During Congressional review a obligation limit was imposed on FY 1981 APEX funding. If that restriction is not lifted, the 4C sytem implementation schedule will have to be revised markedly. The effect will be to delay 4C service to a number of Community users and, therefore, to delay important security management benefits which are possible only after completion of Phase II of 4C. The driving item is a 26 January 1981 COMSEC procurement deadline. If we can gain a release by that date, we can start Phase II COMSEC procurement this fiscal year. If not, we must wait another year for implementation of Phase II.

25X1 This package has been coordinated with SA/DCI/C,
and Office of Data Processing.

3. Recommendation: Approval of the attached letters.

25X1 Attachments: a/s

The driving factor now is COMSEC procurement. If this funding issue can be resolved by 26 January 1981, it will be possible to meet the COMSEC equipment procurement deadline. If not, the result will be (1) a one-year delay in system implementation, and (2) a procurement cost increase of \$82,500.

Respectfully,

A handwritten signature in black ink, appearing to read "Stansfield Turner", written over the word "Respectfully,".
